

NO GOOD TO KICK

GEORGE T. ANTHONY YANKS UP THE FIRE INSURANCE COMPANIES.

They Object to Giving Him a Detailed Account of Their Earnings of Premiums so He can Find the Sum of the Firemen's Relief Fund, Claiming that Their Business is Private—Anthony Says that His Office is Administrative and He Doesn't Care to Argue the Case as it would Do No Good.

Topeka, Kan., Dec. 5.—A few weeks ago George T. Anthony, superintendent of insurance, sent out to the various fire insurance companies doing business in Kansas, blanks upon which the companies are expected to make returns of amounts received as insurance premiums, for the purpose of determining what amount the fire departments of the state are entitled to under the provisions of the 2 per cent reciprocal tax law.

These blanks called for a detailed statement showing the amount of the policy, the holder thereof, and the amount of the premiums. These details the companies object to showing, and some of them have characterized the action of the superintendent as wholly unnecessary and not an essential element of the enforcement of the law governing the tax and its collection. Some of the companies assert that in addition to imposing a tax of 2 per cent upon the business for the maintenance of fire departments and firemen's relief funds, the compilation of the data required in the blanks sent out from the department will necessitate the expenditure of an additional 1 per cent of the premiums, making a total of 3 per cent which will be expended for Kansas business.

Superintendent Anthony has prepared a circular letter which he is sending out to the companies. Its mission is to answer all arguments made against the preparation of the detailed reports asked for.

Mr. Anthony feels that the companies have upon their books a record of the business written in the various cities, from which transcripts, fulfilling the requirements of the blank form sent out, can be cheaply and quickly prepared. However, to those who have neglected to keep proper records, the letter concedes that, perhaps, some of the expense and additional labor demanded will become a necessity. Yet, there is no disposition on the part of the superintendent to recede from his position in any point at issue.

Some of the representatives of the companies object to making the detailed statements upon the grounds that the business is of a private character and that a report would place the records of such personal business within the reach of those who might desire to examine them for the purpose of "meddling in business not their own." The superintendent assures the officers that the records will be carefully and privately preserved within the vaults of the department.

After an exhaustive examination of the whole case, Superintendent Anthony reaches the following conclusions: "First—The powers and duties of this office are purely administrative and ministerial, not judicial. Hence the constitutionality or justice of the law can not be raised nor discussed with me.

Second—The form of returns prescribed is the result of careful thought and the most mature judgment, the correctness of which is more than sustained by the spirit of resistance to the law so patent in all the correspondence leading up to this writing. The requirements of these blanks will have to be adhered to, in fact and figures, or they will be refused as a non-compliance with the letter and the spirit of the law.

"Third—The assumption that these reports are public property, accessible to the one who demands to see them, is based in error. They are no legal or just sense subject to any such exposure but are privileged matter never to reach the public, except in a court of law to establish their falsity.

"Fourth—The right to rebate in the amount of returns is admitted, but to this extent only. Policies written and cancelled within the period covered by the return should be entered in the column of 'Term of policy' at the bottom. They were actually in force, and in the column of 'Full premium charged' the amount actually received on the policy during its life. Instead of the term and premium actually written, no case must a rebate be claimed in case of return premium on a policy written prior to the period embraced in the return, nor when credit has been given the insured and policy canceled on account of its failure to pay.

"Fifth—All returns must be verified by the president or vice president and the secretary of the company, except as to companies from foreign countries when they must be verified by the president and secretary of the American board, or trustees, as heretofore required in the case of annual statements."

The following cities in Kansas maintain fire departments to the value of \$1200 or more and are entitled to a percentage of the reciprocal tax: Anthony, Argonia, Arkansas City, Atchison, Belleville, Beloit, Caldwell, Cawker City, Centralia, Cherryvale, Clay Center, Columbus, Concordia, Council Grove, Downs, Emporia, Enterprise, Eureka, Fort Scott, Garnett, Great Bend, Harper, Hays City, Herington, Hiawatha, Hope, Horton, Hutchinson, Independence, Junction City, Kansas City, Kingman, Larned, Lawrence, Leavenworth, Manhattan, Minneapolis, Mulvane, Newton, Oberlin, Olathe, Ottawa, Osborne, Oswego, Paola, Parsons, Peabody, Pittsburg, Pratt, Salina, Seaside, Seaton, Sterling, Strong City, Topeka, Wellington, Wetmore, Weir City, Wichita, Winfield.

OF GENERAL INTEREST.

In ancient Egypt guests at a great house were anointed with perfumed oil by the servants of the establishment as a mark of respect.

The Egyptians were the first human paper makers. Some of the papyrus are said to date from nearly 3000 B. C., exceeding in antiquity the earliest Chinese paper by about 1500 years.

A farmer of Albany, Ore., is exhibiting a bunch of forty-two stalks of wheat with 924 meshes and about 3,500 grains, which grew from a single kernel. Another farmer in Cedar Rapids, Neb., has a cucumber five feet long and still growing.

It is announced that the historic Fairbanks house in Dedham, Mass., has been offered for sale and is in danger of being destroyed. This is one of the oldest houses in the country. It was built shortly after the settlement of Dedham in 1636.

German papers assert that gas pipe made of paper is a success. Manila paper strips are passed through melted asphaltum and then molded under heavy pressure. After cooling the pipes, which may be of any desired length, they receive a water proof coating.

Pine and fir have long fibers, exceedingly well adapted to the use of the

paper-maker, but the resinous substances contained in these woods form so large a percentage of the composition and are so difficult of removal that the paper-makers are compelled to use other varieties.

The first water-mark used, so far as known, was that of Tates in 1498. It was an eight-pointed star in a double circle. Fancy prices are now paid for specimens of Tates' paper, and it is suspected that the demand has created a supply and that specimens have been manufactured closely resembling the original.

Two Jewish merchants of Vienna were recently insulted and beaten in the street by four Austrian officers and complained, through a lawyer, to the war minister. The officers brought suit against them for having offended their honor; the merchants were acquitted, but the lawyer who had spoken of the officers' conduct as cowardly, though he proved that they had half drawn their swords on unarmed men while calling them "dogs of Jews" and "pigs of Jews," was held not to have proved his case, and was fined one hundred florins.

Discouraging reports about the gold fields in Alaska have been brought down from that region recently by unsuccessful miners, but every once in a while some one turns up with the other side of the situation. Recently Peter Wyberg arrived in San Francisco from the Yukon river, bringing with him forty-five thousand dollars in gold dust, the result of two years' work in the diggings at Forty-mile river. He says the unsuccessful miners are mostly from Cook's inlet, and he doesn't think much of the reported big gold finds in that region.
